PLEDGE FORM

International Wildlife Management Symposium
Managing Wildlife in the Next Century
Richmond, BC Canada ~ December 8-9, 2011

The Guide Outfitters Association of British Columbia (GOABC) first started the Wildlife Stewardship Series (WSS) in 2006. The WSS workshops bring together guide outfitters, biologists and government decision makers to discuss the management of specific wildlife species. Since 2006 we have held workshops on sheep, caribou, goats and moose. The symposium is an expansion on this initiative. Given the international scope of this project, the funding requirements are considerably higher. We request your support in making this event successful.
